THE KID (1921)

Directed by Charlie Chaplin

This concert is an immersive sonic experience. We present a full-length feature film by Charlie Chaplin. The Kid (1921) was selected for preservation by the Library Congress for being “culturally, historically, or aesthetically significant.” Innovative for its combination of comedic and dramatic elements, The Kid is widely considered one of the greatest films of the silent era. The UVic Jazz Ensemble has composed an original and entirely unique soundtrack to be performed live to this presentation. It has never been performed in exactly this way before, nor will it ever again.

In workshop settings, the group created strategies for improvisation that accompany, support, and disrupt the narrative. What we present straddles composition and improvisation. To that end, this score is an example of comprovisation. Comprovisation offers a set of techniques for uniting the composer’s and the player’s approach in making new music together. It draws equally on techniques from written composition and from structured improvisation, distilled from music traditions around the globe.

In addition to original compositions and strategies for performance, the group will also incorporate pieces by John Coltrane, Sonny Rollins, Duke Ellington, and others in this live score performance.

The running time for the film is 53 minutes. There is no intermission.
